Antique Silver

⚠ Caution

The Aluminum Alloy Antique Silver Zipper (ATH) is a color treatment on the aluminum element, please kindly note the following special explanations and precautions on the product due to its nature:

1. Strength is generally lower than standard brass element zipper.
2. Due to the nature of aluminum zippers, some specific problems may happen on the product, please contact YKK salesman to refer to the 'Important Notice on Aluminum Zippers' for the details.
3. Decolouration and color changing of the element may happen after repeated washing.

Please fully understand the special features above before placing orders, also testing before orders is highly recommended.
