Little Parts. Big Difference. >>>

# metal zipper made from recycled materials

With lower CO<sub>2</sub> emissions compared to zippers from virgin material, YKK® NATULON® zipper tape products offer YKK quality performance with lower environmental impacts.

Item code : 3YGR\*

### Recycled material ratio

Item code 3YGR 15 cm cut zipper ⇒ approx. 31%\*  
\*Calculated by in-house calculations

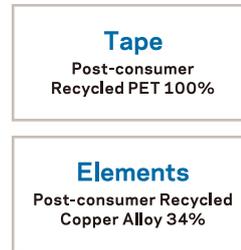

### AcroPlating® Technology

A lower environmental impact product, sliders for No.3 YZiP® zippers are available with AcroPlating® technology that uses less water and energy than conventional electroplating.

NOTE 1: It is only available for No.3 YZiP® zippers. NOTE 2: Toxic waste is 100% eliminated (Life Cycle Assessment conducted by Peterson Projects B.V.). NOTE 3: Silver (Finish code:NC5), Antique Silver (Finish code:NH3) plating are available.

Item code : 5RG\*

### Recycled material ratio

Item code 5RG 60 cm cut zipper ⇒ approx. 29%\*  
\*Calculated by in-house calculations

### Recycled zinc alloy sliders

Pairing the No.5 metal zippers with recycled zinc alloy sliders can enhance the overall percentage of recycled materials used.

## Available Item

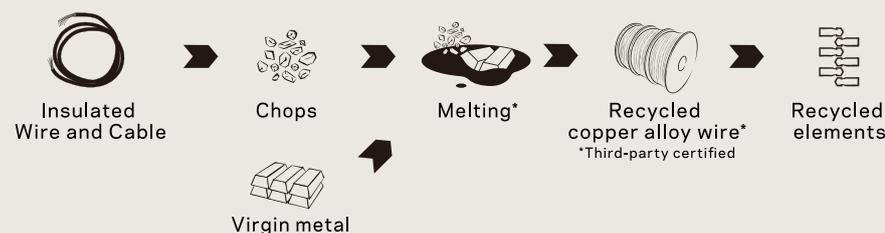

Size/Chain Type	Classification			
	Close	Open	Two-way	Chain
3YGR*	OK	-	-	-
5RG*	OK	OK	OK	OK

## recycling process to NATULON Plus® Metal Zipper

### Recycled tape

### Recycled elements

### Integrated production philosophy

YKK conducts in-house melting and casting of metal materials and carries out integrated production. By analyzing the components at the time of melting, YKK keeps harmful lead and cadmium within the legal standards to ensure safe and secure manufacturing.

NOTE : Some element materials cannot be switched to recycled materials, so please check with your local YKK representative for details.
