

GreenRise®

Designed by Nature

An environmentally friendly plant-based plastic that reduces fossil fuel usage and helps prevent global warming

YKK

Little Parts. Big Difference.

Fastening Products Group

GreenRise® Upcycled Sustainability

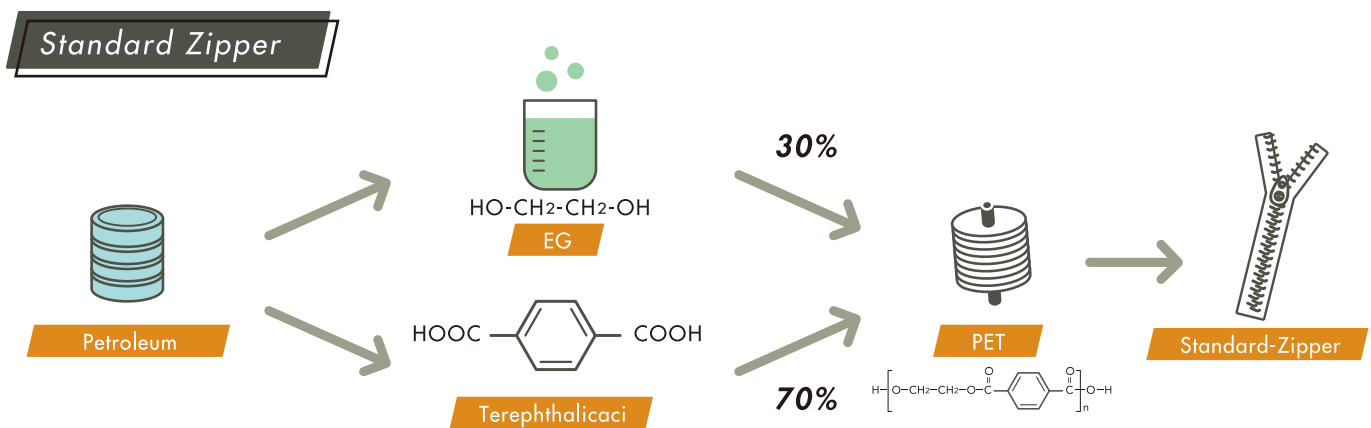

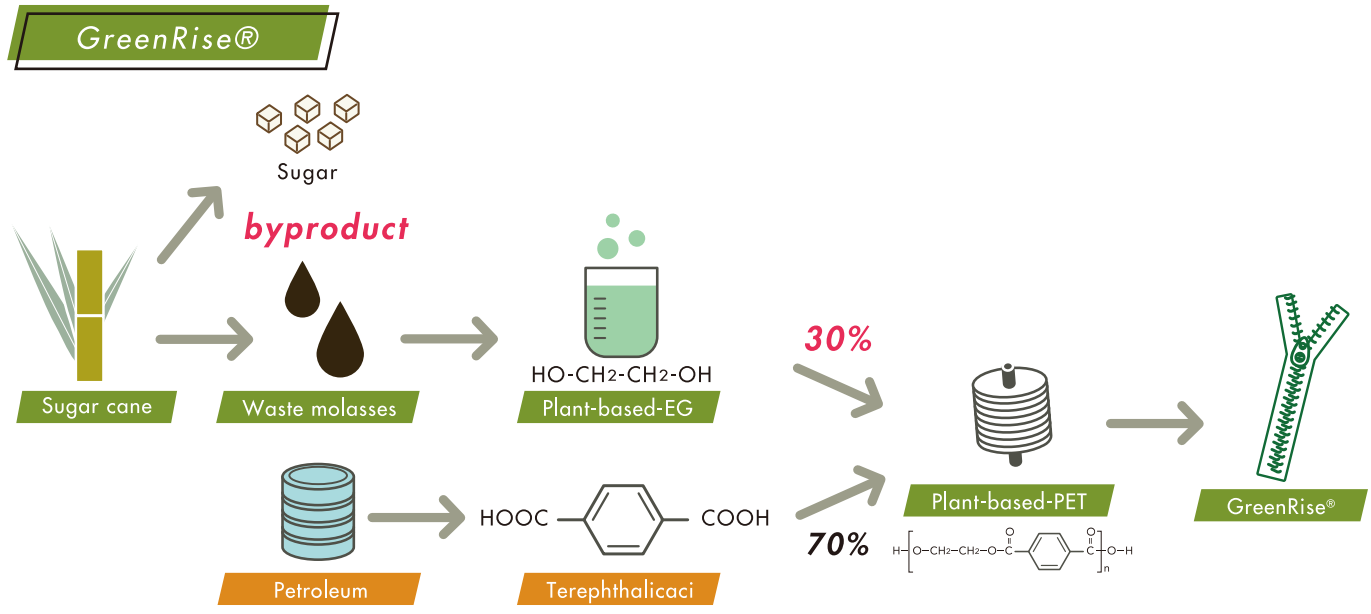

GreenRise® is partially made with the by-product of sugar production which allows for a reduction in its petroleum usage and the associated Co2 emissions.*

- Around 30%* Plant-based material used
- Around 30%* Reduction of petroleum use
- Gives new life to non-consumable sugar byproduct

*Comparison with emissions on the product cycle using 100% petroleum-derived virgin materials

*Bio-based synthetic polymer content ratio

What's the difference between GreenRise® and a Standard zipper ?

Item Variations

Size	Chain Type	Zipper End	Tape	Special Feature Code
3	CGR	C,OR/OL,MR	PGR 12	G-RISE/ ECOMARK
5	CIGR	C,OR/OL,MR	PGR 16	
5	VS	C,OR/OL,MR	PGR 14	

Color Variation: Global color card / DTM *EG: ethylene glycol
